Nuclear Energy Costs the Earth Campaign

No more nuclear reactors, Thank you!
No nuclear waste treatment plant, or cancers and leukemia, Thank you!
Let us all say NO!

We, the undersigned, call upon the South African government to turn away from an unsafe nuclear development path, particularly the proposed Pebble Bed Nuclear Reactor, the associated fuel and transport programmes, and the proposed Radioactive Waste Smelter at Pelindaba. We urge the South African Government to re-direct the funds to safe, clean, sustainable and proven alternatives, such as energy efficiency and renewable energy sources, of which South Africa has in abundance.

When full, please post to: Nuclear Energy Costs the Earth Campaign, Box 11383, Jhb, 2000 or Box 176, Observatory, 7935, Cape Town, South Africa.
